

Krista L. Medendorp

Design credentials: American Intercontinental University Bachelor of Fine Arts in Interior Design, CumLaude - 2004.

Design philosophy: When designing a space I always encourage clients to pick their moment. Design is not always about making every material or finish in the room the show stopper. You must pick your moment and let everything else support it.

Experience: I was a designer at a very early age. When my Mom and I would go to the store I would talk her into buying home magazines and poster board. When I got home I would draw walls and rooms on the poster board and cut and glue pictures from the magazines on them...

In 2004, while still in college, I was hired to design cabinetry and have been doing so ever since. I started my career in new home construction but in 2010 I started specializing in home remodels.

I have worked with clients on every aspect of design. From cabinetry to redesigning their existing floor plans, construction scheduling, and budgeting, along with fixture and finish selections. I also have experience as a special project coordinator for architects and designers. I pride myself on taking the work and pressure off the client whether its the homeowner, architect or designer.

Awards/accolades: Several features in Tampa Housetrends magazine. Participating designer in 2005 and 2006 Atlanta Street of Dreams.

Interests/hobbies: Outside of design, I'm passionate about music and gardening but my true love is my family. My boys teach me to be a better person everyday.
