

Scott Pfaff

Experience: Scott started his career at Busby Cabinets in 1991 and has held positions in; Manufacturing, Engineering and Information Technology. He has been responsible for the creation and implementation of the software tools used throughout the enterprise. These tools allow Busby Cabinets to offer real time information on the status of a client's project throughout the organization.

In his current role as Managing Director he has transitioned to a position that involves bridging the manufacturing processes with the client experience. Exploring all of the ways in which Busby Cabinets can improve the experience for its customers is what makes being a part of the Busby family such an extraordinary experience.

Hobbies: Weekend camping with his wife has been become an epic adventure as they try to visit EVERY State Park in Florida with a campground. When not camping he tries valiantly to keep up with his son on a bicycle but unfortunately he's only getting older and his son is only getting stronger.
